Subject: Urgent Request for Immediate Restoration of Potable Water Supply in Velachery, Chennai

To:

The Executive Engineer

Chennai Metropolitan Water Supply and Sewerage Board (CMWSSB)

Velachery Division

Chennai – 600042

Tamil Nadu

Respected Sir/Madam,

This is to bring to your immediate attention a critical issue concerning the disruption of the potable water supply in Rajalakshmi Nagar, Velachery (Ward 179) for the past 5 days. The sudden and complete halt in water distribution has severely affected over 200 households, including senior citizens, school-going children, and patients requiring hygienic conditions for recovery.

Despite multiple follow-ups with the local water supply office, no resolution has been provided. The residents are now depending on private water tankers at high costs and on unsafe borewell sources, which poses a significant health hazard.

Details of the Issue:

- **Location:** Rajalakshmi Nagar, Velachery, Chennai – 600042
- **Issue Type:** Complete water supply disruption
- **Duration:** From 8th April 2025 to 13th April 2025 (ongoing)
- **Attempts Made:** Complaints logged with Velachery Water Supply Office on 9th and 11th April 2025 (Complaint Nos: WSD/VEL/2351, WSD/VEL/2402)
- **Impact:** Risk of waterborne diseases, sanitation issues, children missing school due to poor hygiene, elderly and medically ill residents highly affected

Taluk: Velachery

District: Chennai

Division: Velachery Division
