Water Supply and Sanitation Department,
Chennai District,
Tamil Nadu.

Subject: Urgent Complaint Regarding Water Contamination in Tambaram Taluk, Chennai South Division

Respected Sir/Madam,

I am writing to bring to your urgent attention a serious issue concerning the drinking water supply in our locality under Tambaram Taluk, Chennai South Division. Residents of our area have been facing severe water contamination problems, which have now escalated to a point where they pose a **high risk to human health**.

The supplied water has an unpleasant odor and visible discoloration. Many residents, including children and senior citizens, have reported symptoms such as stomach infections, skin rashes, and fevers. This is suspected to be due to leakage in the pipelines or possible mixing with sewage water.

Immediate action is necessary to prevent further health deterioration in the community. We request your department to:

1. **Inspect the pipelines and water tanks** servicing the area immediately.
2. **Provide clean drinking water** through tankers until the issue is resolved.
3. **Identify and repair** the source of the contamination at the earliest.
4. **Conduct regular water quality tests** and ensure safe supply.

We sincerely hope the department will treat this matter with the seriousness it deserves and initiate immediate corrective measures.

Thanking you.

Yours sincerely,

[Your Name]
